**Annual Meeting**

The ANPA Annual Meeting, a three-and-a-half-day event, consists of multiple topic-focused symposia lead by the world’s leading neurobehavioral and neuropsychiatric researchers along with member-presented research and clinical platform sessions and disorder-focused special interest groups. The annual meeting is unique in that the 300-400 attendees attend all main sessions as plenaries rather than dividing into multiple smaller presentations. A day of pre-meeting symposia, cosponsored by the Society for Behavioral and Cognitive Neurology, addresses a single disorder in great depth. Attendees share a luncheon at which awards are presented to outstanding young investigators and contributors to the field. Supporters are welcome to attend and exhibit March 22-23, 2018. To view the full program schedule visit: [www.anpaonline.org](http://www.anpaonline.org).

The ANPA meeting provides an excellent opportunity for service providers, publishers, and members of industry to encounter national leaders in neuropsychiatric and neurobehavioral theory and practice through sponsorship opportunities that include exhibit tables, sponsored events or services at the annual meeting, and push notifications and sponsored posts in our digital meeting app.
